

Overview of Eurobarometer surveys with standard EU and trend question modules

In addition to the Standard Eurobarometer and starting with wave 34 (1990) special topical surveys have been conducted intermittently, usually on request of the in each case responsible EC Directorate-General. Herewith the number of surveys conducted under each main wave in spring or autumn has considerably increased (dot-separated sub-numbers). Usually only one survey per main wave includes the standard or trend module with focus on general European Unification issues and on behalf of EC Directorate-General Communication with results published in the official Standard Eurobarometer reports. The following list identifies all surveys from wave 34 onwards which contain the general standard module, a reduced set of standard indicators (subset), or standard European Unification issues in a special topic context, e.g. "Future of Europe" or "European Parliament Eurobarometer".

Standard and EU trend Surveys	Fieldwork	GESIS Study ID	Standard Report	Subset	Special Topic
Eurobarometer 97.3	April-May 2022	ZA7888			X
